

Our Story

The road to success for small businesses is uphill. We know because we're entrepreneurs too. That's why Heartland is committed to being the complete technology solution for growing small businesses. It's why over 750,000 customers trust us to provide the financial technology to make money, move money, manage employees and engage their customers.

We deliver human-tech across all of our solutions, services and support. All designed to help overcome everyday challenges. From new startups to experienced enterprises — when people want a partner they can trust to help them build a remarkable business — they do it with Heartland, because we're entrepreneurs, we're people and we get it.

Great things to know about Heartland

Heartland's history

When Heartland Payment Systems was formed in 1997, helping small businesses survive was our only mission. Today, as a Global Payments company, we're proud to carry on that tradition.

Heartland's community

Nationally, Heartland is known as a pioneer in modern payment processing. But locally we're known as a corporation with heart. We're proud to pay it forward with volunteer hours and sponsorships.

Heartland's leadership

Heartland leaders may hail from different backgrounds and professional experiences, but they all share one thing: an entrepreneurial spirit poised to take us into the future of fintech.

Heartland's careers

Heartland is a great place to work. We're always looking for entrepreneurial-minded candidates with a passion for helping small businesses thrive. We offer great benefits, salaries and PTO.
