Summit Environmental Services, Inc.
Debby Strong / Tom Strong / Joe Bryant***

Summit Environmental Services, Inc. is a fully licensed, professional Asbestos Abatement and Lead RRP company with over 25 years of experience.

We provide residential and commercial environmental services throughout NY State, excluding NY City. We follow all EPA, OSHA and NY State regulations and requirements.

Our knowledgeable project managers will meet with you to understand your project and concerns and provide you with a free estimate.

Our employees are highly skilled, New York State licensed and trained in EPA and OSHA regulations. We are dedicated to safety and 100% customer satisfaction on all our projects.

Leads appreciated:

Commercial or residential customers looking to have Asbestos abated from their home or business. We are also a Lead Safe licensed company that can help service residential or commercial customers with Lead RRP.
